Art Unit: 3641

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

2. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 and 4(1), drawn to a first composition.

Group II, claim(s) 2-3 and 4(2, 3), drawn to a second composition.

Group III, claim(s) 7-9, drawn to a method of making.

3. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The apparent special technical feature is nitrocellulose with a color agent. However, this is clearly not a proper reason for patentability. See MPEP 1850, in pertinent part:

Unity of invention exists only when there is a technical relationship among the claimed inventions involving one or more special technical features. The term "special technical features" is defined as meaning those technical features that define a contribution which each of the inventions considered as a whole, makes over the prior art.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 3641

6. Claims 5-6 and 10-12 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim shall not form the basis for another multiple dependent claim.

See MPEP § 608.01(n). Accordingly, these claims have not been further treated on the merits.
